PROFESSIONAL SUMMARY

BS Artificial Intelligence student with hands-on experience across the full machine learning lifecycle — data preprocessing, feature engineering, model training, evaluation, and deployment. Built and shipped four end-to-end AI applications spanning fraud detection, NLP, and conversational assistants, each deployed with a working web interface. Comfortable in Python, classical ML (Scikit-learn, XGBoost), and currently expanding into deep learning frameworks. Looking to contribute as a Machine Learning Engineer where I can apply strong fundamentals and a proven ability to deliver working products.

TECHNICAL SKILLS

- **Languages:** Python, SQL, HTML5, CSS3, JavaScript (basic)
- **Machine Learning:** Supervised & Unsupervised Learning, NLP, Computer Vision, Predictive Analytics, Feature Engineering, Model Evaluation, Class Imbalance Handling (SMOTE)
- **Libraries & Frameworks:** Scikit-learn, XGBoost, Pandas, NumPy, Matplotlib, Flask
- **Tools & Platforms:** Git/GitHub, Kaggle, Google Colab, Jupyter Notebook, VS Code, Netlify

PROJECTS

AI Chatbot

- Python (Flask)
- React.js
- JavaScript (ES6+)
- HTML5
- Tailwind CSS
- Machine Learning
- Natural Language Processing (NLP)
- Scikit-learn (spaCy)
- REST API

AI Resume Analyzer

- Python (Flask)
- React.js
- JavaScript (ES6+)
- HTML5
- Tailwind CSS
- Machine Learning
- Natural Language Processing (NLP)
- Scikit-learn
- REST API (Git & Github)

Weather App

- React.js
- JavaScript (ES6+)
- HTML5
- CSS3 / Tailwind CSS
- Flask (Python) + Openweather API

EDUCATION

BS Artificial Intelligence — NFC Institute of Engineering & Fertilizer Research

2023 – 2027
